

Two Worthy Organizations Benefit from Preston Customers' Oil Changes

For the past 5 years, Preston Superstore in Burton has donated \$1 from every oil change in October to the fight against cancer. This year they once again donated to UH Geauga Medical Center to help improve the new Seidman Cancer Centers facilities, specifically the infusion center. UH Geauga is focused on giving people in this area the best in oncology and radiation treatments, close to home.

They also donated a portion of the proceeds to Lake Health UH Seidman Cancer center in Mentor. They are doing some great things for patients undergoing cancer treatments. One of their unique programs is a wig and scarf boutique. Patients going through chemotherapy who lose their hair are able to go to the boutique and pick out a wig or scarf to help them get through the tough time of losing their hair. The ownership group at Preston were amazed with the effort the nurses and staff go to at Lake Health UH Seidman to help their patients and make them feel more comfortable.

They also provide their patients with resources to help educate them about the treatment so they know what to expect and how to better manage the side effects. The money Preston donated will go toward those types of resources.

Both of these centers are doing great work in our community to provide wonderful medical care in our own backyards.

Mary Rode, RN, OCN BSHA, Clinical Operations Manager at Lake Health Seidman Cancer Center; Julie Moran, Executive Director of Lake Health Seidman Cancer Center; and Jackie Preston Franck, Preston Superstore

Jackie Preston Franck, Preston Superstore, with UH Geauga's new Chief Nursing Officer, Julia Skarbinski

Come see what everyone is talking about!
